

The Groundwater Group of Northern Ireland

invites you to an evening lecture on the following topic

Molecular and Isotopic Insights into Microbial Lifestyles in a Contaminated Subsurface Ecosystem – New Techniques in Characterising Subsurface Contaminant Impact.

Florian Ensiedl
Department of Earth and Ocean Sciences - National University of Ireland Galway

At

Room DKB/01.028 (the old Room 1010)
David Keir Building, Stranmillis Road
School of Planning, Architecture & Civil Engineering,
Queen's University Belfast

On

Wednesday 26th November, 2008

between

6.00-7.00 pm
(Tea/coffee available from 5.30pm)

The lectures are intended to inform all persons with an interest in groundwater, hydrogeology, geology, geotechnical issues and water research, management, protection and regulation.
