

# IRISH ASSOCIATION FOR ECONOMIC GEOL

The Irish Association for Economic Geology (IAEG) in association with the Geological Remote Sensing Group (GRSG) and the Joly Society, Trinity College Dublin

## Remote Sensing for Mineral Exploration

Dan Taranik / Anglo American plc

Remote Sensing for Base Metals & Gold Exploration

Monday 30 March 2009 at 8pm

M4 / Museum Building / Trinity College Dublin

Refreshments from 7.45pm

**CV** - Chairman of the Geological Remote Sensing Group  
Anglo American plc (Global) - Multi-Commodity  
Rio Tinto (South America & Europe) - Precious & Base Metals  
University of Nevada at Reno, University of Colorado at Boulder

**Talk** - Free remote sensing data and related resources

- New instruments and data sources - field based, airborne and satellites
- Digital elevation approaches from remote sensing
- Software and processing developments
- Remote sensing industry trends in Exploration
- Promising new technologies, research and development, future sensors
- London Geological Remote Sensing Group - mission and activities
